# AVM Education Overview

*“The AVM Account Manager was an excellent ambassador for a first dealing with the company, he has been patient whilst working on our difficult network system.*

*His knowledge of this system and network has proved invaluable to help various support departments work together to implement this system.”*

**The University of Salford**

*“The College has used AVM for some years now and they recently were chosen as the supplier for our extended education centre... The College would be happy to recommend AVM based upon their professionalism and our experience of using their service desk.”*

**The Royal College of Pathology**

*“We are delighted with the system. It is invaluable to the operation of the school.”*

**Pudsey Grangefield Secondary School**

*“Many thanks for all your patient help last week. The presentation to the Medical Council was a great success.”*

**Kingston University**

# About Us

AVM was established in 1990 and is the leading audio visual and video conferencing systems integrator in the UK.

The company designs, supplies, programs and supports complex audio visual solutions ranging from boardroom presentation suites to large video conferencing networks.

AVM Education specialises in supplying and installing bespoke interactive teaching and learning environments into schools, colleges and universities across the UK. Our solutions are designed with issues such as security, health, safety and the environment in mind.

Our education team understand how the integration of audio visual technology within school development plans, along with the appropriate support and training of teachers, contributes to a collaborative, engaging and creative learning environment.

**Our solutions include:**

- Digital signage
- LCD & plasma screens
- Video conferencing systems
- Lecture theatre & school hall packages
- Room control systems
- Interactive teaching & learning environments
- Projectors & visualisers
- Interactive whiteboards & software
- Pupil response systems
- Touch screen tables & boards
- Service & maintenance packages
- Networkable AV solutions
- Installation & training
- Lamps, spares & cables

AVM Education services over 60 Local Authorities, Local Education Partners and County Councils, from nursery to university level.

AVM Education is an approved supplier to the following education buying authorities.

# Services

AVM Education has a range of services to ensure that you get the most out of your investment in your audio visual system.

Our experienced team of skilled and dedicated engineers provide a comprehensive aftercare and maintenance service. This is supported by a hotline and online repair log, to assist customers through equipment set-up, operational issues and the warranty process.

## **Installation**

Our education team can provide a range of installation services for schools, colleges, higher and further education. We offer a complete service from a simple mounted projector and screen solution to a fully automated environment.

With technology changing on a day-to-day basis, our design team can provide the right solution to fit any presentation or display environment. Our experienced Project Managers will ensure each solution is delivered, implemented and completed to our clients complete satisfaction.

## **Maintenance**

Our teams can support all audio visual systems, regardless of where and when they were purchased. AVM Education offers maintenance contracts on all installation work, regular servicing and preventative maintenance checks. This ensures reliability and 100% system up-time, therefore maximising your investment.

## **Training**

AVM Education is committed to ensuring the successful use of interactive technology in the classroom, lecture room and workplace. We have developed a unique training and support programme and work with each customer to ensure a high quality outcome.
